

Assessments

Teacher-based assessments

All Dyslexia Association Trained Teachers can conduct screening for specific difficulties and strengths in preparation for teaching. This assessment does not include an IQ test.

Contact us

Psycho-Educational Assessments

A full Psycho-Educational assessment includes an IQ test and is used to diagnose dyslexia.

The Association keeps a register of Educational Psychologists for referral.

Speech and Language Assessments

If a child is slow to learn to speak or has a speech difficulty (mis-pronunciations, lisp, mis-articulation, stuttering) they should be seen by a speech and language clinician for screening.

The Association keeps a register of Speech and Language Clinicians for referral.
